

To: Residents of Laurel Grove Road

From: City of Middletown, Public Works Department

Date: August 10, 2011

Re: Proposed Roadway Reconstruction

Laurel Grove Road will be reconstructed starting later this month by the City of Middletown Public Works Department. In addition to the pavement reconstruction in the roadway between Randolph Road and Anderson Road, minor drainage work and curbing installation will take place. Included in the overall project will be grading and driveway apron reconstruction in the immediate vicinity of the roadway, which will be necessary to match into the new roadway grade in the front of your property.

During the construction, you will always have access to your property, but there may be interruptions and/or delays while the work is happening.

If you have any questions on this matter, please feel free to contact our Department at 344-3408. Thank-you for your anticipated cooperation while this work is in progress.

Sincerely,

William J. Russo
Public Works Director
