

## SECTION 3

### **CONTRACTOR HAZARD COMMUNICATION**

Prior to the commencement of work, the Contractor shall provide the Owner with the following:

- A list of the specific chemicals and other hazardous materials (dust, fumes, gases, etc.) that may generated at the specific work site;
- the Material Safety Data Sheet (MSDS) that accompanies the specified chemicals;
- the control measures to be implemented to ensure proper safety.

Contractors and subcontractors must not bring any substances which may be considered hazardous onto the facility without prior consent of the City of Middletown. Contractors and subcontractors will not use or dispose of in any manner substances which may be considered hazardous within the facility without prior written consent of the City. The City will consider the following factors in the determination to allow the use of any hazardous substance by contractors and subcontractors:

- Relative hazards of its use;
- availability of substitutes;
- disposal of substances; and
- the potential for employee exposure.

Any equipment used by the Contractor and subcontractor in areas where flammable materials are stored or processed must be explosion proof. **The Contractor shall be responsible for ensuring the compliance of all subcontractors with the above requirements.**

The City of Middletown will provide the contractors and contractor personnel with appropriate information and training. Information and training will include the following:

- potential chemical and physical hazards for the area in the contract operations are being conducted;
- location and availability of Material Safety Data Sheets;
- detection of the presence of hazardous materials;
- facility precautions and safety procedures;
- emergency information concerning location of emergency/ first aid equipment;
- Hazardous chemical labeling system.

Contractor personnel must sign the accompanying statement that verifies that they have received and understand the information presented.
